

CORE COMPETENCIES

Full lighting engineering, HVAC and control systems services including site surveys, energy audits and photometric analysis to ensure that foot-candle requirements and site-specific needs are met

Total turnkey solution guides you from planning to installation, including incentive and rebate support, as well as post-installation service

More than 50 internationally-certified Big Shine LED light fixtures in hundreds of configurations, including beam angle, color temperature, mounting options, integral or remote controls, and efficacy

The best quality and latest designs in LED lighting, including high bays, low bays, linear luminaires, explosion proofs, panels, tubes, high masts, and area lights, including poles

DIFFERENTIATORS

- ▶ Direct and continuous oversight of global manufacturing ensuring the highest level of quality and performance, and rapid insertion of the latest technology
- ▶ Multiple plant locations throughout Asia ensuring continuity of supply
- ▶ Since the launch of the #ApproachingZero Campaign in 2015, Big Shine has helped clients reduce more than 45 million kWh—equivalent to about \$14 billion in energy costs
- ▶ Transformed more than 1,000 major commercial and government facilities with brilliant, energy-efficient LED lighting

COMPANY DATA

Big Shine began in 1989 as a technology company in South Korea with a focus on semiconductors and has expanded to every continent in under three decades. After its launch in the United States, Big Shine naturally expanded its capabilities to provide LED lighting to help commercial companies and government agencies cross over to more efficient energy means. With GSA-approved and internationally-certified fixtures, Big Shine is equipped to serve various public and private sector entities on a global scale.

Big Shine Worldwide, Inc. (d/b/a Big Shine Energy) provides engineered energy-efficient LED lighting, HVAC and lighting control system solutions through its total turnkey solution service.
